WORK EXPERIENCE

Front-end developer

KAOS.agency [↗](#)

03/2023 - 04/2023

Bangalore, India

Achievements/Tasks

- Revolutionize episode's end-date calculation based on weekends, weekdays, and custom days in the channel maintaining product **Amagi-Planner**.
- Engineered an eye-catching roll-up animation only when the system generated end-date changes automatically, not for the manual date change.
- Streamlined scheduling process by implementing drag and drop, copy-paste, and CRUD operations for episodes and ads in day view same as in week view.

Frontend Tech : Next.js, Typescript, Jest framework, Storybook, GraphQL, Node.js, etc.

Associate Software Engineer

KoineArth India Pvt. Ltd. [↗](#)

10/2021 - 01/2023

Bangalore, India

Blockchain Based Start-up

Achievements/Tasks

- Implement partial payment feature for financed invoices in **marketsN**, boosting repayment collection by 30 percent.
- Enhance **ngageN** NFT creation, buying, bidding, and collection flows to boost performance and reduce user clicks by 20 percent.
- Built the edit user profile page from scratch, implementing an authorization check to hide the creator profile tab from non-creator users.

Frontend Tech : Next.js, Material UI, Tailwind CSS, Redux, Node.js, etc.

PERSONAL PROJECTS

SyncVault [↗](#)

- An NFT platform homepage for artists, creators, and fans to collaborate to grow their audiences and earn rewards.
- Developed using Material UI, Herolcons and Next.js.

ngageN [↗](#)

- A fully responsive website for demo booking, designed to help big brands launch NFTs. Created for KoineArth, a leading blockchain-based startup, to attract new customers.
- Developed using React.js, Axios, Mongoose, and Firebase.

Contact Keeper [↗](#)

- A contact's keeper web app, featuring login, password reset, filter, search, and all CRUD operations.
- Developed using MongoDB, JWT authorization. *Context API, Material UI and Back-end with Node.js and Express.*

SKILLS
